- Understanding Our Local Entrepreneurial Ecosystem**
 Our area offers outstanding resources to entrepreneurs. But, sometimes figuring out who you go to in our community for help with your idea or starting a business can be a challenge. This session will introduce you to area resources like the Business Innovation Center, Idea Camp, Veteran's Business Outreach, A+, and more. Join us and we'll do our best to answer your questions and connect you to the right resources for your success.
- Introduction to 3D Printing**
 Get started in 3D printing! Learn the basics in a one-hour session about this remarkable technology and find out how you can use a 3D printer in your life. No experience required.
- Hands-On 3D Printing**
 Learn how to use a 3D printer and build your custom designs in this free hands-on workshop. Topics in this 3-hour workshop will include 3D modeling, 3D printer setup, and post processing.
